Contents

VOLUME 24, NUMBER 1, MARCH 1985

P. A. Robins and G. T. Kraft. Morphology of the type and Australian species of *Dudresnaya* (Dumontiaceae, Rhodophyta) 1–34

R. H. Reed, I. R. Davison, J. A. Chudek and R. Foster. The osmotic role of mannitol in the Phaeophyta: an appraisal 35–47

M. J. Wynne. Evidence for the transfer of *Cyclospora curtissiae* J. Agardh to *Carpoblepharis* (Ceramiaceae, Rhodophyta) 49–54

J. M. Huisman. *Rhipidothamnion secundum* gen. et sp. nov. and *Spermothamnion miniatum* sp. nov. (Ceramiaceae, Rhodophyta) from eastern Australia 55–66

G. T. Kraft and P. A. Robins. Is the Order Cryptonemiales (Rhodophyta) defensible? 67–77

F. R. Trainor. Survival of algae in a desiccated soil: a 25 year study . . 79–82

R. A. Chastain and J. G. Stewart. Studies on *Berkeleya hyalina* (Round & Brooks) Cox, a marine tube-forming diatom 83–92

M. Penot, J. Dumay et M. Pellegrini. Contribution a l'étude de la fixation et du transport du ^{14}C chez *Cystoseira nodicaulis* (Fucales, Cystoseiraceae) 93–102

I. Kaczmarska, S. R. Rushforth and J. R. Johansen. *Chaetoceros amanita* Cleve-Euler (Bacillariophyceae) from Blue Lake Warm Spring, Utah, USA . . 103–109

R. J. Anderson and H. Stegenga. A crustose tetrasporophyte in the life history of *Nothogenia erinacea* (Turner) Parkinson (Galaxauraceae, Rhodophyta) 111–118

Book reviews and publications received 119–121

IPS Constitution 122–124

Reports 125–126

Announcements 127

Published 12 March 1985

VOLUME 24, NUMBER 2, JUNE 1985

M. O. Morison and R. G. Sheath. Responses to desiccation stress by *Klebsormidium rivulare* (Ulotrichales, Chlorophyta) from a Rhode Island stream 129–145

A. C. Cheshire and N. D. Hallam. The environmental role of alginates in *Durvillaea potatorum* (Fucales, Phaeophyta) 147–153

J. R. Johansen and G. A. Fryxell. The genus *Thalassiosira* (Bacillariophyceae): studies on species occurring south of the Antarctic Convergence Zone 155–179

M. N. Clayton, N. D. Hallam, S. E. Luff and T. Diggins. Cytology of the apex, thallus development and reproductive structures of *Hormosira banksii* (Fucales, Phaeophyta) 181–190

F. H. Chang and K. G. Ryan. *Pyrmnesium calathiferum* sp. nov. (Prymnesophyceae), a new species isolated from Northland, New Zealand . . 191–198

D. L. Ballantine. *Botryocladia wynnei* sp. nov. and *B. spinulifera* (Rhodymeniales, Rhodophyta) Taylor & Abbott from Puerto Rico 199–204

T. Ichimura and F. Kasai. Studies on the life cycle of *Spinoclosterium cuspidatum* (Bailey) Hirano (Conjugatophyceae) 205–216

M. Durand and C. Berkaloff. Pigment composition and chloroplast organization of *Gambierdiscus toxicus* Adachi and Fukuyo (Dinophyceae) . . . 217–223

J. A. Hellebust and S. M. L. Le Gresley. Growth characteristics of the marine rock pool flagellate *Chlamydomonas pulsatilla* Wollenweber (Chlorophyta) 225–229

H. M. Hull, R. W. Hoshaw and Jen-Chyong-Wang. Interpretation of zygospore wall structure and taxonomy of *Spirogyra* and *Sirogonium* (Zygnemataceae, Chlorophyta) 231–239

A. K. S. K. Prasad. *Ecballocystopsis desikacharyi* sp. nov. (Chlorodendrales, Chlorophyta) from India: structure and reproduction 241–243

L. M. Brown. An acidification and evacuation method for the measurement of algal photosynthesis (Research Note) 245–249

J. S. Buzer, R. A. Dohmeier and D. R. Du Toit. The survival of algae in dry soils exposed to high temperatures for extended time periods (Research Note) 249–251

Book reviews and publications received 253–256

Announcements 256

Published 11 June 1985

VOLUME 24, NUMBER 3, SEPTEMBER 1985

A Tribute to Professor Wm. Randolph Taylor 259–261

C.J. O'Kelly and G.L. Floyd. Absolute configuration analysis of the flagellar apparatus in *Giraudyopsis stellifer* (Chrysophyceae, Sarcinochrysidales) zoospores and its significance in the evolution of the Phaeophyceae . . 263–274

M.E. Bakker and G.M. Lokhorst. The ultrastructure of the flagellar apparatus of the zoospore of *Chaetomorpha melagonium* (Web. & Mohr) Kützing (Chlorophyta) 275–288

H. Kawai and M. Kurogi. On the life history of *Pseudochorda nagaii* (Pseudochordaceae fam. nov.) and its transfer from the Chordariales to the Laminariales (Phaeophyta) 289–296

C.A. Maggs and M.D. Guiry. Life history and reproduction of *Schmitzia hiscockiana* sp. nov. (Rhodophyta, Gigartinales) from the British Isles . . 297–310

R.A. Lewin and K.W. Lee. Autotomy of algal flagella: electron microscope studies of *Chlamydomonas* (Chlorophyceae) and *Tetraselmis* (Prasinophyceae) 311–316

Wm. J. Woelkerling, Y.M. Chamberlain and P.C. Silva. A taxonomic and nomenclatural reassessment of *Tenarea, Titanoderma* and *Dermatolithon* (Corallinaceae, Rhodophyta) based on studies of type and other critical specimens 317–337

G.T. Kraft and J. Olsen-Stojkovich. *Avrainvillea calithina* (Udoteaceae, Bryopsidales), a new green alga from Lord Howe Island, NSW, Australia . . 339–345

S.G. Forward and G.R. South. Observations on the taxonomy and life history of North Atlantic *Acrothrix* Kylin (Phaeophyceae, Chordariales) . . 347–359

J. Neveux. An unknown chlorophyll and other pigments isolated from a bloom of *Noctiluca miliaris* Suriray (Dinophyceae) (Research Note) . . . 361–363

C.F. Boudouresque, M. Gerbal and M. Knoepffler-Peguy. L'algue japonnaise *Undaria pinnatifida* (Phaeophyceae, Laminariales) en Méditerranée (Research Note) 364–366

C. Sorentino. Copper resistance in *Hormidium fluitans* (Gay) Heering (Ulotrichaceae, Chlorophyceae) (Research Note) 366–368

In Memoriam 369–373

Book reviews and publications received 374–375

Announcements 376–377

Published 24 September 1985

VOLUME 24, NUMBER 4, DECEMBER 1985

The International Phycological Society's First Honorary Member: Dr Paul C. Silva 379–380

E. Theriot, H.J. Carney and P.J. Richerson. Morphology, ecology and systematics of *Cyclotella andina* sp. nov. (Bacillariophyceae) from Lake Titicaca, Peru–Bolivia 381–387

M.M. Harlin, W.J. Woelkerling and D.I. Walker. Effects of a hypersalinity gradient on epiphytic Corallinaceae (Rhodophyta) in Shark Bay, Western Australia 389–402

J.M. Huisman. The *Scinaia* assemblage (Galaxauraceae, Rhodophyta): a reappraisal 403–418

R.L. Moe. *Gainia* and Gainiaceae, a new genus and family of crustose marine Rhodophyceae from Antarctica 419–428

G. Bula-Meyer. *Champiocolax sarae* gen. et sp. nov., an adelphohemiparasite of the Champiaceae (Rhodymeniales, Rhodophyta) 429–435

J.R. Johansen and S.R. Rushforth. A contribution to the taxonomy of *Chaetoceros muelleri* Lemmermann (Bacillariophyceae) and related taxa . . 437–447

I.R. Davison and R.H. Reed. The physiological significance of mannitol accumulation in brown algae: the role of mannitol as a compatible cytoplasmic solute 449–457

D.L. Ballantine and M.J. Wynne. *Platysiphonia* and *Apoglossum* (Delesseriaceae, Rhodophyta) in the tropical western Atlantic 459–465

D.G. Müller, M.N. Clayton and I. Germann. Sexual reproduction and life history of *Perithalia caudata* (Sporochnales, Phaeophyta) 467–473

D.G. Müller, I. Maier and G. Gassmann. Survey on sexual pheromone specificity in Laminariales (Phaeophyceae) (Research Note) 475–477

M.R. Gretz, M.R. Sommerfeld and D.E. Wujek. Light and electron microscopical observations of *Mallomonas portae-ferreae* var. *reticulata* var. nov. (Chrysophyceae) (Research Note) 478–481

L. Fries. Propagation of *Fucus* (Fucales, Phaeophyta) by hairs with trichothallic growth (Research Note) 481–484

Book reviews and publications received 485–488

Reports 489

Announcements 490–492
